

IWM-01\02

Collection bin for proximity cards

- IWM-01\02 are motorised take-in modules for ISO cards. The take-in modules can also be used for cards in cardholders
- The IWM-01 can be mounted in the SOR-01 or BOR-01. The IWM-02 can only be mounted in the BOR-02
- The IWM-01\02 is driven by a potential free contact from an external Security Management System
- The IWM-01\02 operates independent of the used proximity reader
- In case a card (or other object) blocks the entrance of the collection bin ,the "Error" contact is switched on.

Connections:	
Pin 1	12VDC
Pin 2	GND
Pin 3	IN1
Pin 4	GND
Pin 5	Error

Technical specifications :	
Power supply	12VDC
Power consumption	Typ. 30mA
Input "In1"	Active low
Material	PVC
Dimensions	540mmx240mmx200mm
